# SMART WATCH

## Immersive Superior Display

Immerse yourself in the super large, 45.2mm (1.78") Always-On AMOLED Display, and keep an eye on every call, reminder and message portrayed on your screen in a defined quality. A display of 368\*448 Pixels delivers every detail with the utmost precision on the screen of your Fire-Boltt Smartwatch, giving you the best visual experience.

## Reliable & Robust

A classy metallic body that will not only help you look outstanding but also, robust and tough enough to stick around through every step of the way.

## Connection Without Interruption

Now, no more a muffled sound experience! All thanks to Bluetooth 5.0 that allows a quick and smooth connectivity with all external devices.

## Bluetooth Calling

IP67

## Built To Resist

With IP67 resistance, It is safe from accidental water splashes and can withstand strenuous workouts in the gym. Don't worry about the watch, it's literally built to resist.
